

BUSINESS SOLUTION

Advanced Access Anywhere

Initiate and Support Specialty and Retail Therapies with Advanced Access Anywhere

Advanced Access Anywhere (AAA) is a first-of-its-kind solution that delivers rapid therapy initiation and enrollment into available support programs at the point of the pharmacy claim.

AssistRx combines its proprietary technology with its network of more than 63,000 pharmacies nationwide to eliminate the enrollment form, accelerate speed to therapy and facilitate access from anywhere. HCPs simply electronically prescribe to a pharmacy, the pharmacy submits the claim, and the patient receives their medication and access to available support services — all in minutes and without an enrollment form.

AAA is the answer for brands seeking more patient support program enrollments, faster dispenses and greater visibility to the patient journey.

63,000+
Network of pharmacies nationwide

Accelerate Speed to Therapy

AAA's streamlined pharmacy claim submission process integrates seamlessly within existing HCP, pharmacy and patient workflows, reducing time to treatment and improving stakeholder experiences.

Improve Patient Access & Affordability

With a nationwide network of specialty, mail order and retail pharmacies, AAA meets patients where they are. By performing real-time eligibility screening and enrollment into available financial assistance programs, AAA improves patient access and affordability.

Enhance Patient Outcomes & Program Performance

AAA delivers real-time, comprehensive insights that facilitate a holistic view of the brand's patient population. This enables more strategic direct-to-consumer engagement strategies, improved outcomes and better program performance.

\$3 Billion

Projected claims value over 12 months

7 seconds

Time to initiate eEnrollment & other Advanced eServices at the claim

Advanced eService	Description
 eConsent	Digital tool captures patient consent at the point of care or virtually at the patient's convenience through email, text, the brand website or HIPAAConsent.com. Rapid capture of consent ensures timely access to support services.
 eEnrollment	Electronic solution ensures patients receive timely access to crucial services that support adherence. With a robust digital library of product-specific enrollment forms, HCPs experience a simplified process through field validation and pre-populated patient, prescriber and specialty pharmacy information. This tool also reduces risk for missing, incomplete or illegible information.
 Advanced Benefit Verification (ABV)	Digital solution returns patients' pharmacy benefit coverage data in seconds. Using just five patient identifiers, ABV pulls comprehensive coverage information in real-time using direct connectivity to payers/PBMs. Returned data includes payer/PBM name and type; BIN; PCN; member and group IDs; plan type and channel (e.g., commercial, government); effective and term dates; deductible amounts, patient OOP amounts, access restrictions (PA/step edit required) and coverage alerts.
 Advanced Prior Authorization (APA)	Automated solution for submitting PAs in near real time — with payer/PBM decisions returned in minutes. Covering more than 80% of payer-covered lives, APA pulls the appropriate PA form based on the product and patient's plan. HCP and patient data are pre-populated, and only relevant questions and response options are presented. APA also facilitates electronic submission of supporting documentation and notes.
 Financial Assistance Access	Digital tool powers immediate eligibility screening and enrollment into life sciences organizations' affordability programs, such as patient assistance program (PAP) and copay assistance. Patients, caregivers and HCPs can perform real-time screening and enrollment — and access the copay card, voucher, etc., via email, text, download and more.

Tailored Solutions with Nationwide Reach

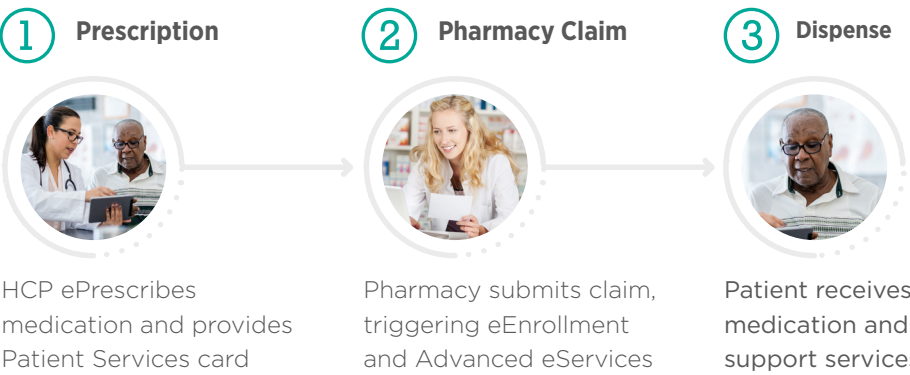

AAA is custom-built to address the diverse needs of life sciences organizations, HCPs, pharmacies and patients. With fully configurable technology and 63,000+ in-network pharmacies, AAA achieves the scalability and visibility life sciences organizations need to differentiate their brands in today's competitive marketplace.

-  Simplified HCP education and messaging
-  Visibility to prescriptions sent to retail
-  Streamlined pharmacy contracting

Whether launching a new program or supporting an existing therapy, AAA increases patient uptake, facilitates greater visibility and improves outcomes.

Patient Access Achieved in Three Easy Steps

AAA's approach reduces a lengthy process to a matter of minutes.

Informed access. Improved outcomes.

AssistRx has engineered the perfect blend of tech + talent to provide an advanced therapy initiation and patient support solution to improve patient uptake, visibility and outcomes. Our solution integrates technology and therapy expertise to advance patient therapy in a more efficient and effective manner—delivering informed touchpoints that simplify a complex system to enable better results for today's patients.
